Some notes on the “Contributions”:

- Activities are intended to foster cooperation with {Member}s –to help build trust and fellowship with the {Provisional Member} who wishes to join their ranks. Other activities are listed because they:
 - Are highly beneficial to the Guild, and therefore should be encouraged.
 - Will likely require coordinating with {Member}s.
 - Give the {Provisional Member} an opportunity to represent the Guild to outside groups.
- Activities involving a larger number of {Member}s are worth more. The process is designed to reward {Provisional Member}s for supporting {Member}s.
- Activities with higher visibility are worth more because they are higher risk.
- Activities more likely to result in unfair circumstances (such as Community Games) are worth more than their generic Team-Game counterparts.
